

LANCOM Wireless ePaper Displays (WDG-2)

Radio-controlled digital signage

Wireless ePaper Displays from LANCOM offer state-of-the-art digital signage for a wide range of applications. The displays are controlled by an innovative wireless technology with extremely low power consumption. They provide flicker-free viewing from any angle. The contents are always visible under artificial lighting. The Wireless ePaper Displays are managed and monitored by the high-performance LANCOM Wireless ePaper Server that comes with an interface (API) for connecting to calendar-management and merchandise-management systems. With the display options of black, white, and red, specific highlights can be presented.

- Convenient radio-controlled updates via the LANCOM Wireless ePaper Server
- Available in four sizes: 12.2", 7.4", 4.4", 2.7"
- Display in black, white, and red
- Suitable for use in daylight and capable of displaying graphics
- Battery life up to 5 years

LANCOM Wireless ePaper Displays (WDG-2)

Convenient, wireless updates via LANCOM Wireless ePaper Server

The LANCOM Wireless ePaper Displays are centrally controlled by a convenient program, the LANCOM Wireless ePaper Server. The appropriate interfaces allow data for room signs to be automatically transferred from calendar-management systems such as Exchange, Domino, iCalender, and Office 365. For example, ongoing meetings and their participants can be displayed, as well as subsequent appointments and their times. Signage at the meeting-room doorways is always up to date, offers genuine informational value, and creates transparency.

Available in four sizes: 12.2", 7.4", 4.4", 2.7"

The LANCOM Wireless ePaper Displays (WDG-2) are available in a range of sizes for a wide variety of uses.

Display in black, white, and red

The second-generation Wireless ePaper Displays offer three colors; black, white, and red. These new displays are ideal for presenting highlighted messages.

Suitable for daylight and graphics

Suitable for use in daylight, the Wireless ePaper Displays present text and graphics and offer perfect readability from any angle, without reflecting.

Battery life of up to 5 years

Thanks to the extremely low power consumption and active avoidance of interferences the LANCOM Wireless ePaper Displays have a battery life of up to 5 years (with updates on average 1 - 2 times per day), depending on the display type. There is no need for costly cable installations.

The perfect framework for your room signage

The 7.4" LANCOM Wireless ePaper Displays (WDG-2) can be equipped with the LANCOM Wireless ePaper Premium Frame 7.4". This brushed stainless steel frame (optional extra) is an optical enhancement for its surroundings.

Depending on the application, some expertise may be required

Uploading a static image to the Wireless ePaper Display does not require any special knowledge. However, integrating calendar databases or merchandise management systems requires a certain level of expertise.

LANCOM Wireless ePaper Displays (WDG-2)

Accessories	
LANCOM LN-1700UE	Dual radio access point based on IEEE 802.11ac Wave 2 (1,733 Mbps) & IEEE 802.11n (450 Mbps), par. operation in 2.4 & 5 GHz, 4x4 MIMO, 2x GE, 1x USB, 802.3at PoE, WPA3, control of Wireless ePaper Displays, int. antennas, without power supply and cable. Item no. 61801(EU), 61802(WW), 61803 (Bulk 10)
LANCOM LN-830E Wireless	Quad-radio access point with WLAN based on IEEE 802.11ac (867 Mbps) & IEEE 802.11n (300 Mbps), parallel operation in 2.4 and 5 GHz, int. radio module for controlling Wireless ePaper displays, built-in iBeacon technology, IEEE 802.3af PoE. Item no. 61747(EU), 61748(UK)
LANCOM Wireless ePaper USB	USB extension module for controlling LANCOM Wireless ePaper Displays via radio, supports LANCOM routers and access points with USB port, incl. 3 m USB extension cord and bracket for ceiling and wall mounting. Item no. 62225
LANCOM Wireless ePaper Server License Pro	Central server for operating Wireless ePaper infrastructures, interface (API) for connection to ext. calendar management- (Exchange/Domino/Google Calendar/Office 365) and ERP systems, add. license for +1000 displays and an unlimited number of APs. Item no. 62204
LANCOM Wireless ePaper Premium Frame 7.4"	LANCOM Wireless ePaper Premium Frame 7.4", high-quality frame from stainless steel, compatibel to Wireless ePaper Displays 7.4", incl. installation instructions and microfiber cloth. Item no. 61648
LANCOM Wireless ePaper Premium Mount 7.4"	LANCOM Wireless ePaper Premium Mount 7.4", high-quality display mount compatible with Wireless ePaper displays size 7.4" incl. assembly instructions and adhesive dots. Item no. 61649
Item number(s)	
LANCOM WDG-2 12.2"	62226, updates via radio with LANCOM access points of the E series, fully graphics-compatible and daylight-readable, battery life of 5 years, incl. white frame and wall mounting.
LANCOM WDG-2 7.4" (Bulk 5)	62221, 5 pcs. LANCOM WDG-2 7.4", updates via radio with LANCOM access points of the E series, fully graphics-compatible and daylight-readable, battery life of 5 years, incl. white and black clip-on frames and table holders.
LANCOM WDG-2 7.4"	62217, updates via radio with LANCOM access points of the E series, fully graphics-compatible and daylight-readable, battery life of 5 years, incl. white and black clip-on frames and table holders.
LANCOM WDG-2 4.2" (Bulk 5)	62220, 5 pcs. LANCOM WDG-2 4.2", updates via radio with LANCOM access points of the E series, fully graphics-compatible and daylight-readable, battery life of 5 years, incl. white and black clip-on frames and table holders.
LANCOM WDG-2 4.2"	62218, updates via radio with LANCOM access points of the E series, fully graphics-compatible and daylight-readable, battery life of 5 years, incl. white and black clip-on frames and table holders.
LANCOM WDG-2 2.7" (Bulk 5)	62219, 5 pcs. LANCOM WDG-2 2.7", updates via radio with LANCOM access points of the E series, fully graphics-compatible and daylight-readable, battery life of 5 years, incl. white and black clip-on frames and table holders.
